## SWEET STORY WRITING PROMPT

There are some interesting candy bar names. You will be creating a story using the names of at least 5 candy bars as people, places, things, events, etc.

When you are finished with all stages of the writing process, you will publish your final copy in the computer lab using your knowledge of Microsoft Word.

You will have to:

- Center your title
- Indent your paragraphs
- Space words and sentences appropriately
- Change your font and color of the candy bar name
- Spell check

You will be typing your story using the font "Times New Roman." Each candy bar name should have a different font and color. Since you will have 5 different candy bar names, you will have 5 different fonts and colors.
